

For duo

Instruments : whistle

Duration: about 10min (or longer)

Whistle in unison. Use the same note during the piece.

Stand in row, faces in the same direction. Player 1 in front. Player 1 starts to whistle the note. Before sound disappears, player 2 starts to whistle the same note, so that the sound doesn't disappear. Player 1 starts again before sound disappears.. keep the sound on until the end of the piece.

Stay for a moment without moving.

After a while player 1 takes long step forward (when not whistling), player 2 does the same after the whistle, but much smaller step (like 1/5). Repeat this until the end of the piece.

So, always after the whistle, take a step.

You can decide how far player 1 goes, and end the piece there.

Play. Sound can get louder, quieter, more over on top of each other, crescendo, decrescendo..

Thank you
